REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Regarding claims 1-45, the prior art fails to disclose a method and a data unit transmitter of determining a parameter associated with a retransmission timeout feature in a data unit transmitter implementing a protocol that provides an acknowledgment feature of sending acknowledgment messages for the correct receipt of data units from the receiver to the sender of a communication, and provides the retransmission time-out feature of retransmitting data units if an acknowledgment does not arrive at the sender within a time-out period, comprising the steps of:

measuring a round trip time value, the round trip time being indicative of the time that passes between the sending of a given data unit and the receipt of the acknowledgment corresponding to the given data unit;

calculating a new smoothed round trip time value at least on the basis of a stored smoothed round trip time value and the measured round trip time value;

calculating a new mean deviation value indicative of the mean deviation of the round trip time values over time, at least on the basis of a stored mean deviation value, the measured round trip time value and the stored smoothed round trip time value within the structure of the claims.
